## 1. Introduction

### 1.1. Mission Karmayogi

The Government of India launched the National Programme for Civil Services Capacity Building ('NPCSCB') – "Mission Karmayogi" in September 2020 with the objective of enhancing governance through Civil Service Capacity Building. Mission Karmayogi comprises six pillars of (i) policy framework, (ii) institutional framework, (iii) competency framework, (iv) digital learning framework (integrated government online training Karmayogi platform (iGOT - Karmayogi), (v) electronic Human Resource Management System (e-HRMS), and (vi) monitoring and evaluation (M&E) framework.

The institutional framework of the Mission includes (i) the apex body, Prime Minister's Public Human Resource Council (PMHRC), to provide strategic direction and drive policy reforms and capacity building, (ii) Cabinet Secretariat Coordination Unit to monitor NPCSCB implementation, align stakeholders and provide mechanism for overseeing capacity building plans (CBPs), (iii) Capacity Building Commission (CBC) for functional supervision of training institutions and facilitate preparation of annual CBPs, (iv) Special Purpose Vehicle (SPV) to own and operate all the digital assets created for NPCSCB, and (v) Programme management unit (PMU) to provide program management and support services.

### 1.2. Capacity Building Commission

The CBC was formally constituted as an independent body in April 2021 to drive standardization and harmonization across the Indian civil services landscape. The CBC, as the custodian of civil services capacity building reforms, is central to the government's capacity building programme.

The CBC has been engaging and supporting several Ministries as part of its mandate to support preparation of annual CBP. This document is the Capacity Needs Analysis for the Department of Science & Technology, Government of India developed as per the framework and guidelines set up by the CBC and prepared in consultation with the officials of Department of Science & Technology.

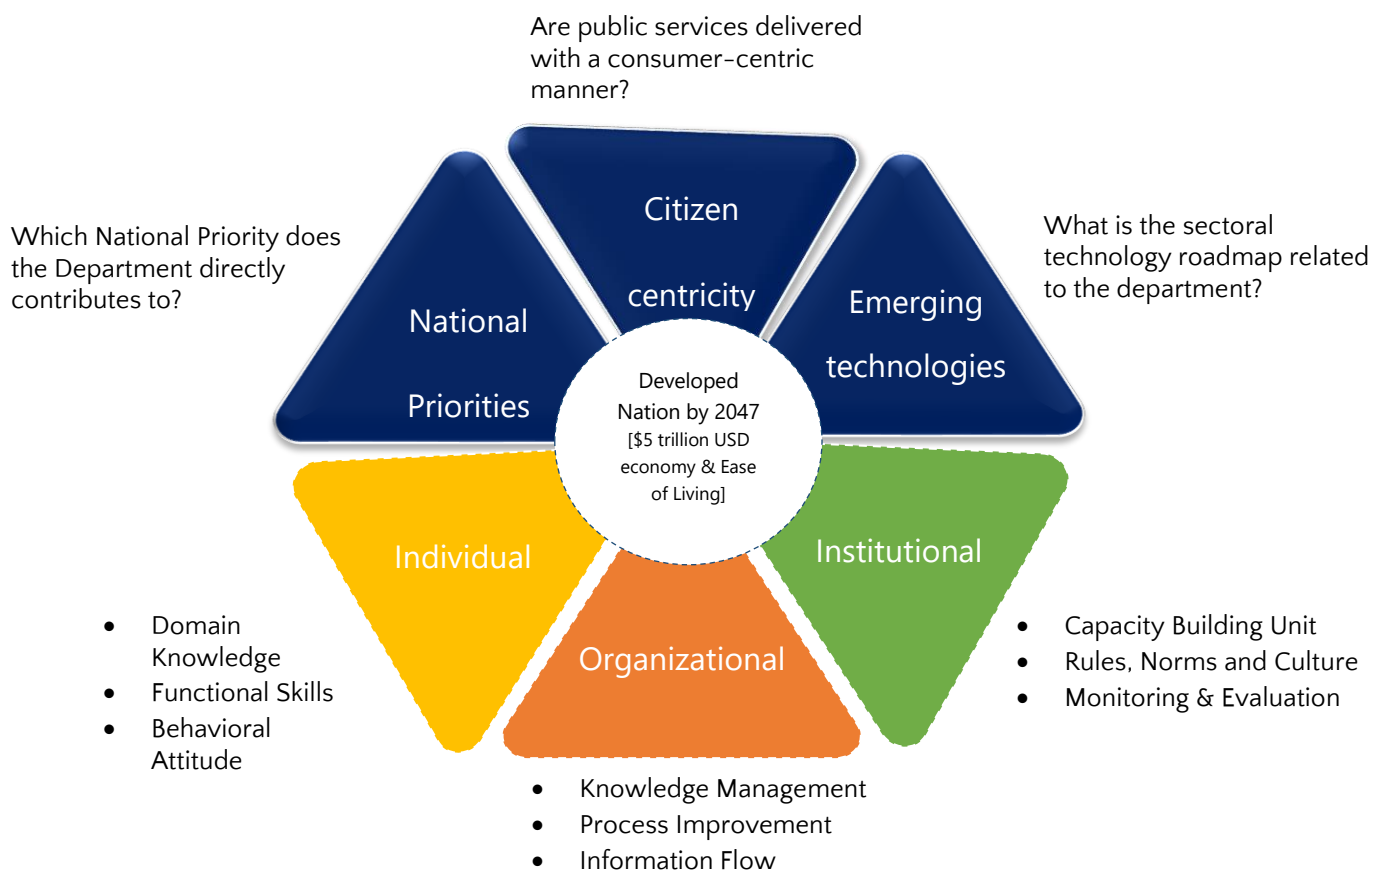

### 1.3. Annual Capacity Building Plan (ACBP)

The ACBP of a MDO is document detailing all the interventions required to develop and enhance the competencies of individual officials within that MDO as well as the collective capacity of the MDO. Given the nature of the change required, the ACBP may begin with a few simple focus areas instead of comprehensive coverage, and then evolve over time into a full-fledged workplan.

## 2. Approach & Methodology

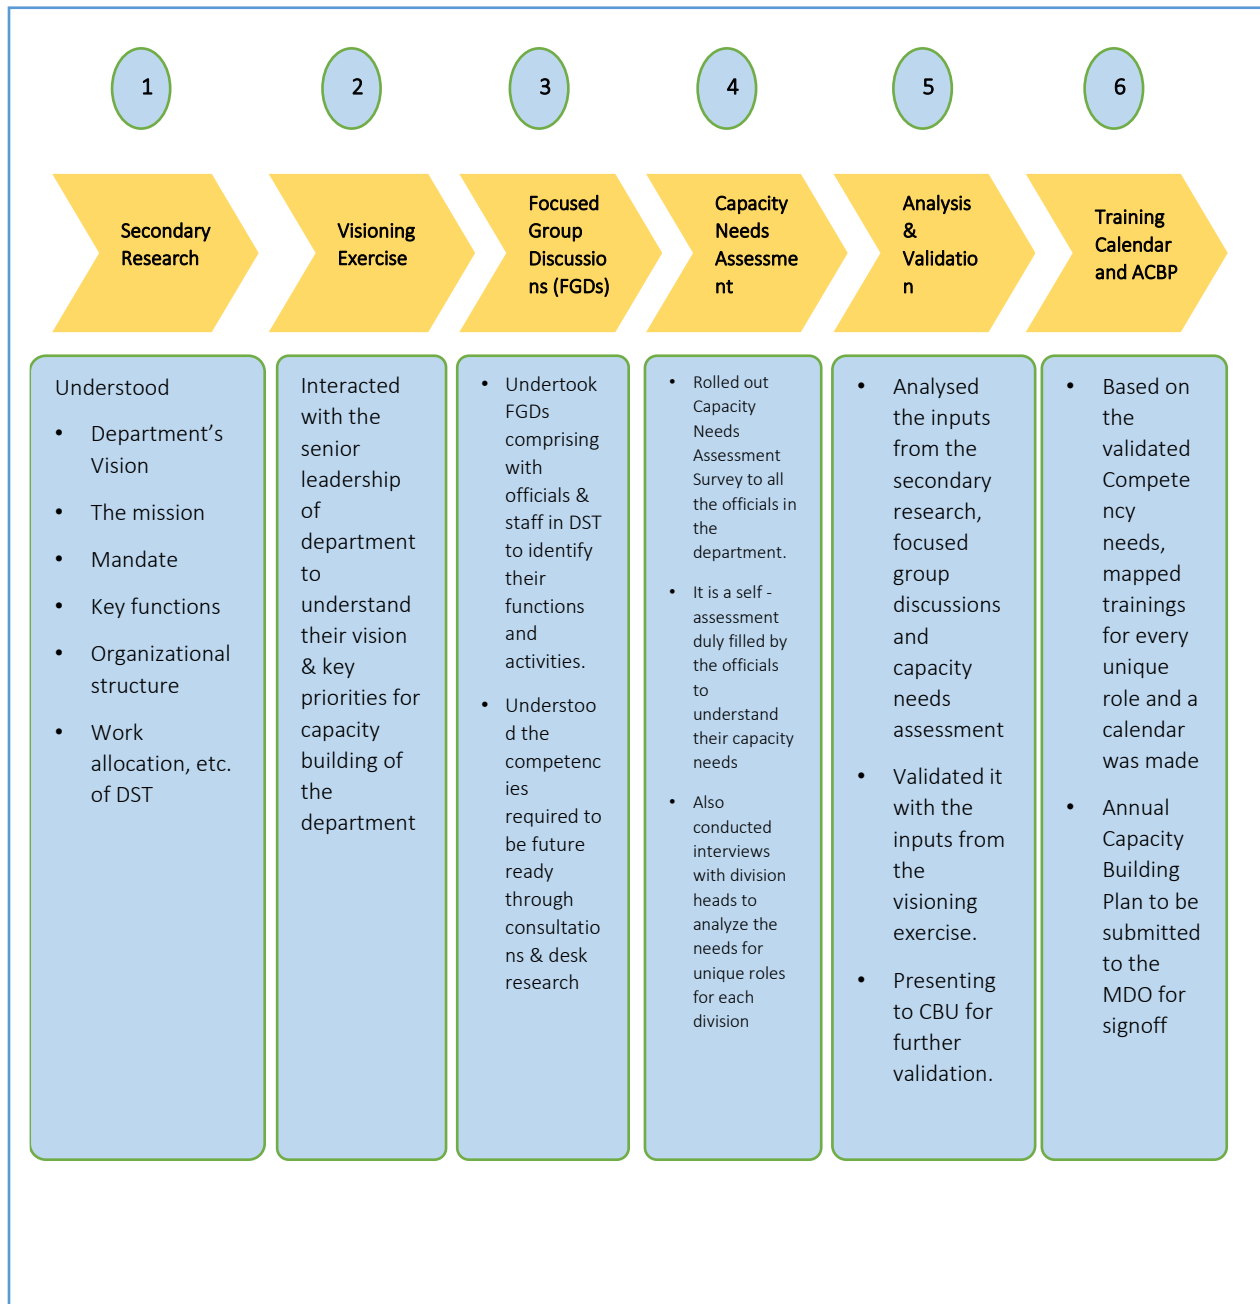

### 2.1. Approach

The following illustration describes the approach suggested by CBC for the goal-oriented Capacity Building of MDOs. The capacity building of the department shall be identified through the three overarching lenses to help identify the goals of capacity building plan: National Priorities, Citizen Centricity, and Emerging Technologies and capacity to be developed by identifying interventions at three levels also referred to as the three pillars: Individual, Organizational, and Institutional

## 2.2. Methodology

The following section describes the approach followed for preparation of the Capacity Building Plan for the Department:

- 1. Secondary Research:** As the first step, team understood & conducted a thorough review of the MDOs vision, mission, mandate, organizational structure and key functions, schemes/ programs, strategic objectives and goals, emerging trends from the Departments website, annual report, strategy document, reports etc. Also comprehend MDOs dependence and influence on other MDOs.
- 2. Visioning Exercise:** Understood the leaderships vision for the department through a joint meeting between Secretary & Jt. Secretaries, Directors and understand the key priorities and department's expectation from the program
- 3. Focused Group Discussions (FGDs):** Team undertook the Focused Group Discussions (FGDs) to have a clear and complete understanding of the areas of responsibility of each division/ unit, the functions & activities, mapping of work undertaken by staff/ officials working in the unique designations/ roles across various levels in the ministry/ department, identify the competency gap, the competencies required by a position in present times or in the future. In terms of the capacity at the individual level, competencies required for a position were assessed for two categories of competencies i.e., Behavioural and Functional.
- 4. Capacity Needs Analysis (CNA) Survey:** A Google survey form was prepared & finalized in consultation with CBC and the MDO to assess the Capacity Needs Assessment at the individual level for each unique role in an organization and its subordinate/ attached offices/institutions/ labs. The survey is based on the self-declaration of capacity gaps by the ministry officials, capturing the competency gaps in Behavioural and Functional competencies.
- 5. Analysis & Validation:** Team synthesized and prepared the CNA survey data to analyse the survey responses & findings. For verification of the competency gaps, mapping of interventions with the trainings was done, the analysis was first validated by Capacity Building Commission (CBC) and thereafter by the Capacity Building Unit (CBU) of the Ministry/Department for further approval of the training and non-training Interventions for the capacity needs.
- 6. Training Calendar and ACBP Report:** Prepared the training calendars of DST and incorporated it in the ACBP. The training calendars are the result of the above steps performed. Starting from secondary research to validating the finding with the Department.

The following points may be noted:

1. Only the courses from iGOT have been mentioned in the calendar and for rest of them external trainings other than iGOT are available.
2. CBC will onboard new courses for the competencies marked as “Upcoming Courses” and these will be available in the next 6-12 months.
3. The “To be developed” courses are currently not available on iGOT; these may need to be developed by the Department in consultation with CBC

### 3.5. Organizational Level capacity building interventions

In addition to the training courses, outlined above, additional capacity building interventions are proposed which are listed below:

1. **Learning Hour:** One hour fortnightly fixed for learning and its completely voluntary (Internal / External trainer may be invited).
2. **Mentorship Program:** The mentor would help the new joiner get accustomed to the culture of the Department.
3. **Recognition and Rewards:** Best efforts to be recognized on MDO website / newsletter
4. **Virtual Kiosk:** Kiosks can be set up fortnightly or monthly to clear all the queries on a topic.
5. **Immersion Programs:** To R&D centers, DST Funded Labs & Autonomous Institutions, Private Industries and other MDO's.
6. **Induction Manual:** Consists of introduction to all the divisions in the department, their work allocation and nodal officer of that division, all DST establishments, and their functions.
7. **x-MDO scientific staff collaboration:** Facilitate collaboration between scientists working in different research centers, institutes, and laboratories across different MDOs by building on each other's capabilities for more value creation.
8. **Science Leadership:** Facilitate senior scientists in smooth transition to the role of a leader.
9. **Policy Hub:** All the policies being followed in the Department would be available for all the staff
10. **Regular feedback Programme:** Reporting officer provides feedback to immediate repartees with emphasis on training courses completed (the list of training courses to be undertaken will be provided for each role).

## 4. Monitoring & Evaluation

**Objective:** To monitor and evaluate the effective implementation of ACBP

### a. Levels of M&E

Monitoring and evaluation of the ACBP can be carried out at two levels by the CBU:

1. **At the department level**, the monitoring and evaluation can be carried out on three KPIs

- a. Number of courses completed by department officials on iGOT
- b. Number of courses completed by department officials from institutions other than iGOT
- c. Number of Non-Training Interventions implemented

2. **At the unique role level**

- a. Number of courses completed by the officer in the unique role. Reporting Officer/CBU SPOC may refer to the Training Calendar in access this KPI

b. **Monitoring of Activities for training Interventions:** Further, the two activities of undertaking iGOT and the other hybrid/offline courses may be monitored and evaluated based on the below framework.

Activities	Indicator	Definition	Means of verification	Unit	Targets		Reporting Frequency	Partners involved
					Y 1	Y 2		

Activity 1

1	Undertake courses on iGOT	Percentage of staff who have completed the recommended courses on iGOT	Courses based on the designation wise competency needs of the department would be recommended	<ul style="list-style-type: none"> <li>• Course completion certificates</li> <li>• Data available on iGOT platform</li> </ul>	%	Targets		Quarterly	CBC, Department of Science & Technology

3	<b>Recognition and Rewards</b>	<ul style="list-style-type: none"> <li>3-5 Staff members from each centre to be recognized / rewarded per month</li> </ul>
4	<b>Virtual Kiosk</b>	<ul style="list-style-type: none"> <li>At least 1 virtual kiosk per month</li> </ul>
5	<b>Immersion Programs</b>	<ul style="list-style-type: none"> <li>At least, 1 resource per division in a quarter to be nominated for the immersion programs to the DST funded labs or AIs needs,</li> </ul>
6	<b>Induction Manual</b>	<ul style="list-style-type: none"> <li>Induction manual for all the divisions to be formulated within the next 6 months.</li> </ul>
7	<b>x-MDO scientific staff collaboration</b>	<ul style="list-style-type: none"> <li>At least 1 knowledge sharing session focused on a particular sector, for relevant MDOs in the first 6 months</li> <li>Subsequently, 1 knowledge sharing session per quarter</li> </ul>
8	<b>Science Leadership</b>	<ul style="list-style-type: none"> <li>Launch of programme over the next 6 months</li> </ul>
9	<b>Policy Hub</b>	Implement the Policy Hub in the current financial year
10	<b>Regular feedback programme</b>	<ul style="list-style-type: none"> <li>In the first 6 months, 20% of the staff to be covered</li> <li>Within subsequent 6 months, 50% to be covered</li> </ul>

d. **Evaluation**

- The MDO administrator, through his / her admin account on iGOT, can access the IGOT course dashboard which includes all the date pertaining to enrolment, progress of courses, number of courses completed by each individual on iGOT. This information may be used for evaluating progress across set targets
- The training calendar mentioned in section 3 consists of all the courses that each unique role in the department needs to complete. This may be used to evaluate achievement of individual targets

## 5. Annexure

### 5.1. As-is assessment of the Ministry to develop a capacity building agenda

#### 5.1.1. Functional Overview of the Department<sup>1</sup>

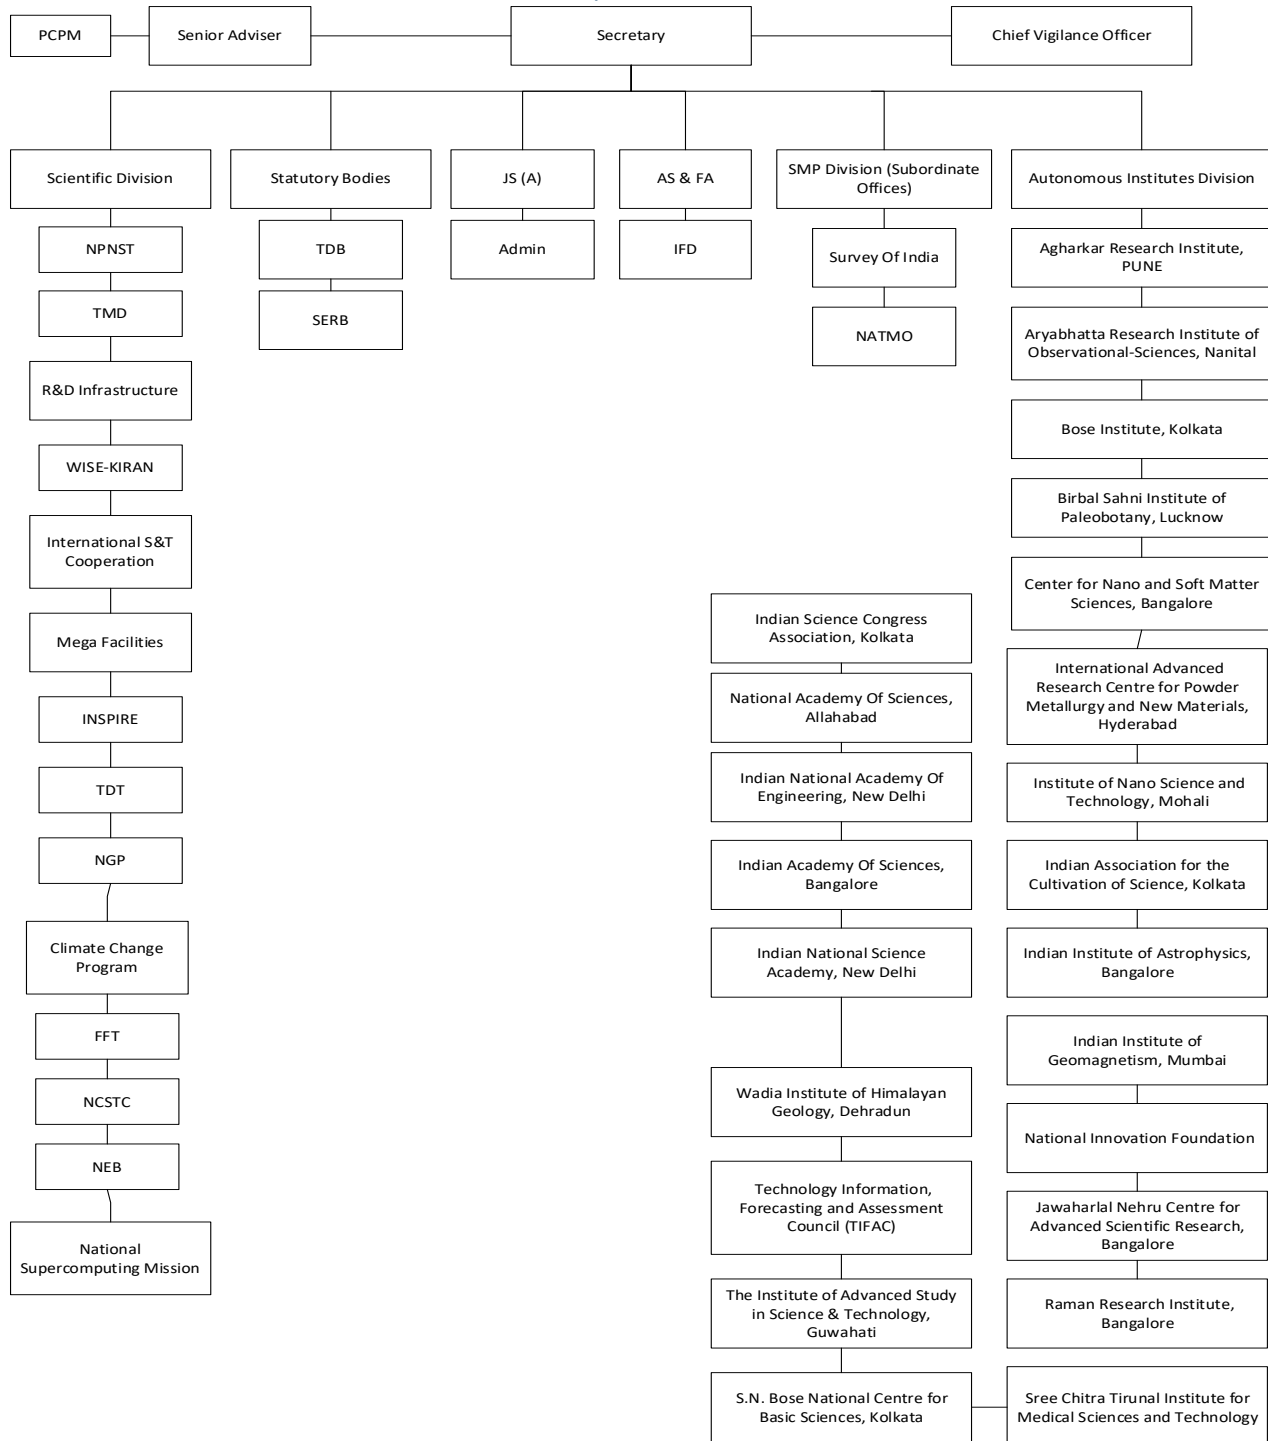

The Department of Science and Technology (DST) is a department within the Ministry of Science and Technology in India. It was established in May 1971 to promote new areas of science and technology and to play the role of a nodal department for organizing, coordinating, and promoting Scientific and Technological activities in the country. It gives funds to various approved scientific projects in India. It also supports various researchers in India to attend conferences abroad and to go for experimental works. India is one of the top-ranking countries in the field of basic research. Indian Science has come to be regarded as one of the most powerful instruments of growth and development, especially in the emerging scenario and competitive economy. In the wake of the recent developments and the new demands that are being placed on the S&T system, it is necessary for us to embark on some major science projects which have relevance to national needs, and which will also be relevant for tomorrow's technology.

The Department of Science & Technology plays a pivotal role in promotion of science & technology in the country. The department has wide ranging activities ranging from promoting high end basic research and development of cutting-edge technologies on one hand to service the technological requirements of the common man through development of appropriate skills and technologies on the other.

### 5.1.4. Functions

The following table elaborates the mandate and objectives of Department of Science and Technology which act as guiding markers for its functions.

<b>Vision<sup>3</sup></b>	To continuously shape a seamless science, technology, and innovation ecosystem, which is cutting-edge, collaborative, inclusive, relevant and aligned to our national priorities, to create new opportunities today while addressing the challenges of tomorrow.
<b>Mission<sup>4</sup></b>	Promoting new areas of Science & Technology and to play the role of a nodal department for organizing, coordinating, and promoting S&T activities in the country.

Mandate for the next 3 – 5 years<sup>5</sup>

1. Formulation of policies relating to Science and Technology (S&T).
2. Matters relating to the Scientific Advisory Committee to Cabinet (SAC-C).
3. Promotion of new areas of S&T with special emphasis on emerging areas.
  - a. R&D through its research institutions or laboratories for development of indigenous technologies concerning bio-fuel production, processing, standardization, and applications, in co-ordination with the concerned Ministry or Department
  - b. R&D activities to promote utilization of by-products to develop value added chemicals.
4. Futurology.
5. Coordination and integration of areas of S&T having cross-sectoral linkages in which a number of institutions and departments have interest and capabilities.
6. Undertaking or financially sponsoring scientific and technological surveys, research design and development, where necessary.
7. Support and Grants-in-aid to Scientific Research Institutions, Scientific Associations and Bodies.
8. All matters concerning
  - a. Science and Engineering Research Council/Board (SERC/SERB)
  - b. Technology Development Board (TDB) and related Acts such as the R&D Cess Act,1986 and the TDB Act,1995
  - c. National Council for Science and Technology Communication
  - d. National S&T Entrepreneurship Development Board
  - e. International S&T Cooperation including appointment of scientific attaches abroad
  - f. Autonomous S&T Institutions relating to the subject under DST including Institute of Astrophysics and Institute of Geo-magnetism

#### 5.1.5. Citizen centric services & goals<sup>9</sup>

Department of Science and Technology has a lot of citizen centric initiatives & services. The policies or decisions are made by the department that affect the citizens of India as they are one of the main stakeholders. Some of the **key citizen centric activities** include-

Citizen Centric Goals	<p>The citizen centric goals of the ministry are:</p> <ol style="list-style-type: none"> <li>1. <b>Information Technology and e-Governance (ITeG):</b> aims to convert the existing procedures and processes into citizen centred to create an IT enabled work environment</li> <li>2. <b>IT Action Plan:</b> Aims to enrich the contents of the DSIR website by including downloadable forms and guidelines relevant to various citizen services that Department provides</li> </ol>
Citizen Centric Services	<p>The citizen services by the department are as follows:</p> <ul style="list-style-type: none"> <li>• <b>STUTI (Synergistic Training program Utilizing the Scientific and Technological Infrastructure):</b> Initiative to build human resource and its knowledge capacity; envisions hands-on training program and sensitization of the state-of-the-art equipment's</li> <li>• <b>CURIE:</b> Initiative to improve R&amp;D infrastructure and establish State-of-the art laboratories in women universities</li> <li>• Others include public grievance redressal system, <b>SATHI program</b> is meant for setting up shared, professionally managed services and strong science and technology infrastructure facilities at national level</li> <li>• There are several schemes which are oriented towards the citizens of India and for their benefits. Apart from that there are also schemes for societal benefits, which are mentioned in the following sections.</li> </ul>

### 5.1.6. Key Programs & Schemes<sup>10</sup>

The below table provides the mapping of key programs & schemes of Department of Science and Technology to three Lenses of Capacity Building:

Sl. No	Schemes	Lens to which they are aligned
1.	INSPIRE SCHEME (Innovation in Science Pursuit for Inspired Research)	National Priorities
2.	Strengthening, Upscaling & Nurturing Local Innovations for Livelihood (SUNIL)	National Priorities
3.	R&D Infrastructure	National Priorities
4.	FIST (Fund for Improvement of S&T Infrastructure in Universities and Higher Educational Institutions)	National Priorities
5.	PURSE (Promotion of University Research and Scientific Excellence)	National Priorities
6.	Sophisticated Analytical Instrument Facilities	National Priorities
7.	SATHI (Sophisticated Analytical & Technical Help Institutes)	National Priorities
8.	STUTI (Synergistic Training program Utilizing the Scientific and Technological Infrastructure)	National Priorities
9.	National Science & Technology Management Information System	National Priorities
10.	National Good Laboratory Practice Compliance Monitoring Authority (NGCMA)	National Priorities
11.	National Geospatial Programme Division (erstwhile NRDMS)	National Priorities
12.	Patent Facilitation Programme (PFP)	National Priorities
13.	Climate Change Programme	National Priorities
14.	International S&T Cooperation	National Priorities
15.	Technology Missions Division	National Priorities
16.	Technology Watch and Fore sighting	Emerging Technologies
17.	Interdisciplinary Cyber Physical Systems (ICPS)	Emerging Technologies
18.	Mega Facilities for Basic Research Scheme	Emerging Technologies
19.	Technical Research Centers Programme	Emerging Technologies
20.	Technology Development and Transfer	Emerging Technologies
21.	Science and Technology of Yoga and Meditation	Citizen Centricity
22.	Programme for Science Students	Citizen Centricity
23.	Cognitive Science Research Initiative (CSRI)	Citizen Centricity

The programs and schemes of the ministry have been tailored to achieve the objectives enumerated in the vision. The schemes/ programs that are being managed by each division/ unit are summarized below:

Scheme	INSPIRE SCHEME (Innovation in Science Pursuit for Inspired Research)
Stakeholders	All citizens of India
Description	The basic objective of the 'Innovation in Science Pursuit for Inspired Research (INSPIRE)' scheme is to communicate to the youth the excitement of pursuing science. INSPIRE attracts and nurtures young bright students to study basic and natural sciences at the college and university level and to pursue research careers in both basic and applied science areas including engineering, medicine, agriculture, and veterinary sciences.
Objectives	<ul style="list-style-type: none"> <li>• <b>INSPIRE INTERNSHIP</b> aims to provide exposure to the top 1% students at Class X Board level by organizing Science Camps either during summer or winter which provides opportunity to them to interact with science icons from India and abroad, including Nobel Laureates, to experience the joys of scientific pursuit. These science camps nourish the curiosity of students in science, help them to think out-of-the box and attract students at an early age of 16-17 years to choose science subjects for further studies.</li> <li>• <b>SCHOLARSHIP for HIGHER EDUCATION (SHE)</b> component of the INSPIRE aims to encourage meritorious students to study basic and natural sciences at undergraduate level through attractive scholarship and mentorship opportunities. SHE offers 12,000 scholarships every year to meritorious students in the age group 17-22 years.</li> <li>• <b>INSPIRE FELLOWSHIP</b> component offers 1000 Fellowships every year to bright students in the age group of 22-27 years to pursue Ph.D. in basic and applied sciences including engineering, medicine, agriculture, and veterinary sciences</li> </ul>

Scheme	Strengthening, Upscaling & Nurturing Local Innovations for Livelihood (SUNIL)
Stakeholders	Citizens of India
Objectives	<ul style="list-style-type: none"> <li>• Technology delivery &amp; enterprise creation model for improving efficiency of livelihood system</li> </ul>

Scheme	Strengthening, Upscaling & Nurturing Local Innovations for Livelihood (SUNIL)
	<ul style="list-style-type: none"> <li>○ Providing emerging &amp; locally appropriate STI solutions to strengthen weakest link of livelihood system through Land-Lab-Land approach involving KIs, NGOs and Community</li> <li>○ Utilizing strongest link of local livelihood system for encouraging social entrepreneurship development for EWS Society</li> <li>● Technology interventions for Addressing Societal Needs (TIASN)               <ul style="list-style-type: none"> <li>○ Research on identifying local &amp; systemic need and STI solutions at the community level</li> <li>○ Developing scientific and need-based innovative technologies for improvement of economically weaker sections such as small and marginal farmers, rural artisans, landless labourer, and urban population in unorganized sectors</li> <li>○ Recognizing strengths &amp; weaknesses of livelihood system</li> <li>○ Standardizing pilot tested locally appropriate technologies</li> <li>○ Identifying local innovation system and linking with National Innovation system</li> <li>○ Mapping welfare system with S&amp;T knowledge system</li> <li>○ Other systemic gaps related to implementation of S&amp;T based projects at community level</li> </ul> </li> <li>● Capacity Building of Community-based organizations (CBOs), NGOs, Knowledge Institutions (KI) &amp; Social Start-ups               <ul style="list-style-type: none"> <li>○ Organizing awareness creation programmes, workshops, roundtable discussions, conferences, exhibitions, skills &amp; training programmes to enhance the S&amp;T capability of CBOs and NGOs</li> <li>○ Imparting knowledge on societal development issues, Sustainable Development Goals (SDGs), National Priorities (NPs) and Scientific Social Responsibilities (SSR) to scientists &amp; researchers</li> <li>○ Standardization of S&amp;T enabled NGOs</li> </ul> </li> </ul>

Scheme	R&D Infrastructure
Stakeholders	Research Institutes and Labs
Description	The R&D Infrastructure Division of the Department aims to strengthen the S&T infrastructure of the country by fostering well-equipped R&D labs in the academic/ research institutes/ universities as well as a strong culture of research collaboration between institutions and across disciplines. It has five schemes the objectives of which, at large, are establishment of R&D labs, centres, upgradation of research facilities orienting towards creating a self-reliant India.

<b>Scheme</b>	<b>FIST (Fund for Improvement of S&amp;T Infrastructure in Universities and Higher Educational Institutions)</b>
<b>Stakeholders</b>	Research Institutions
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• This scheme is operated in competitive mode of support at four levels. The financial support circumscribes six basic purposes i.e., Equipment, Infrastructural Facilities, Networking &amp; Computational Facilities, Industrial R&amp;D Support, SSR Activities and Maintenance.</li> <li>• Depending on the level, the total financial support is limited to Rs. 1.50Crore (Level 0), Rs. 3.0 Crore (Level 1), Rs.5.0 Crore (Level 2) and Rs.10.0 Crore (Level 3).</li> <li>• The program prefers to focus towards supporting interdisciplinary problems, solution-centric and translational research, and increasing the scope for participation of industries and start-ups and new ideas, aiming towards 'Aatma Nirbhar Bharat' as well as cater to the needs and aspirations of the society (SSR).</li> </ul>

<b>Scheme</b>	<b>PURSE (Promotion of University Research and Scientific Excellence)</b>
<b>Stakeholders</b>	Universities & R&D industries
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• To strengthen the research capacity of performing Indian Universities and provide support for nurturing the research ecosystem and strengthening the R&amp;D base of the Universities in the country.</li> <li>• Department of Science &amp; Technology has restructured and re-oriented PURSE in the year 2020. A combination of i10-index of faculty members in the University, H-index of the University along with NIRF Ranking is used to formulate the new criteria for selection of Universities under PURSE</li> </ul>

<b>Scheme</b>	<b>SAIF (Sophisticated Analytical Instrument Facilities)</b>
<b>Stakeholders</b>	Research Institutions
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• The SAIF scheme is being implemented regionally with the objective to provide facilities of sophisticated analytical instruments to the research workers in general and especially from the institutions which do not have such instruments to enable them to pursue R&amp;D activities.</li> <li>• This enables the institutions acquiring such facilities to keep pace with development taking place globally.</li> </ul>

<b>Scheme</b>	<b>SATHI (Sophisticated Analytical &amp; Technical Help Institutes)</b>
<b>Stakeholders</b>	Research & Academic Institutions
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• Setting up of shared, professionally managed Science &amp; Technology Infrastructure facility readily accessible to academia, start-ups, manufacturing units, industries, and R&amp;D Labs.</li> </ul>

Scheme	<b>SATHI (Sophisticated Analytical &amp; Technical Help Institutes)</b>
	<ul style="list-style-type: none"> <li>SATHI Centres will be equipped with major analytical instrument and advanced manufacturing facility, which is usually not available at Institutes/ Organisations.</li> <li>To provide professionally managed services with efficiency, accessibility, and transparency of highest order under one roof to service the demands of industry, start-ups, and academia.</li> </ul>

Scheme	<b>STUTI (Synergistic Training program Utilizing the Scientific and Technological Infrastructure)</b>
Stakeholders	To all citizens of India
Objectives	<ul style="list-style-type: none"> <li>It has been designed to cater to human resource and its capacity building through open access to S&amp;T Infrastructure across the country by organizing short term courses/ workshops on the awareness, use and application of various instruments and analytical techniques</li> </ul>

Scheme	<b>National Science &amp; Technology Management Information System</b>
Stakeholders	Research Institutions
Description	The Scientific and Technological (S&T) activities play a vital role in the economic, social and physical development of a country. Scientific and technological research needs huge investments and calls for a judicious utilization of scarce resources like finance, trained manpower, raw materials etc. Data collection and analysis pertaining to resources, devoted to S&T, therefore, assumes significant importance.
Objectives	<ul style="list-style-type: none"> <li>The growth of S&amp;T, its performance and impact on society and economy are indicators to assess the effectiveness of planning and policy formulation.</li> <li>Key Activities: <b>In-house Research &amp; Sponsored Research</b></li> </ul>

Scheme	<b>National Good Laboratory Practice Compliance Monitoring Authority (NGCMA)</b>
Stakeholders	All laboratories
Description	GLP-compliance certification is voluntary in nature. Industries/ test facilities/laboratories dealing with above chemicals and looking for approval from regulatory authorities before marketing them, may apply to the NGCMA for obtaining GLP Certification.

Scheme	<b>National Geospatial Programme Division (erstwhile NRDMS)</b>
Stakeholders	Researchers & Scientists

Scheme	National Geospatial Programme Division (erstwhile NRDMS)
Description	<ul style="list-style-type: none"> <li>• Promotion of R&amp;D in emerging areas of Geospatial science and technology.</li> <li>• Development of geo-spatial solutions for sustainable socio-economic growth in alignment with Sustainable Development Goals (SDGs) and National Developmental Priorities up to panchayat and ward levels.</li> <li>• Build knowledge and adaptation capacity of geospatial technologies at various levels of governance in collaboration with academia and user agencies.</li> <li>• Stimulate the growth of Geospatial technology innovation.</li> <li>• Develop the national capacity for Geospatial science and technology development, acquisition, and transfer through international cooperation</li> </ul>
Objectives	<p>The following programmes and sub-programmes are being supported under:</p> <ul style="list-style-type: none"> <li>• <b>Geospatial Science Programme:</b> The main aim of the programme is to develop the fundamental and applied scientific knowledge underpinning the geospatial sciences to strengthen geospatial science research and education in line with international standards.</li> <li>• <b>Geospatial Technology Programme:</b> To improve the economic value of the existing Geospatial Technologies in practice, to promote demand based futuristic Geospatial Technology development</li> <li>• <b>Geospatial Solutions Addressing National Priorities and Sustainable Development Goals:</b> <ul style="list-style-type: none"> <li>○ <b>National Programme on Spatial Disaster Risk Reduction (SDRR):</b> Division has taken the initiative for developing an integrated National Programme on Spatial Disaster Risk Reduction (SDRR) with reference to National Disaster Management Plan (NDMP)           <ul style="list-style-type: none"> <li>▪ <b>Landslide Hazard Mitigation (LHM):</b> As part of the integrated landslide programme, efforts were made to develop forewarning system to monitor the critical landslides in different geo-environmental areas. A set of 07 R&amp;D projects has been supported for the development of an early warning system covering areas (States) like Sikkim, Nilgiris (Tamil Nadu), Manikaran, Kotropi, Mandiand, Dharamshala (Himachal Pradesh), and Uttarakhand.</li> <li>▪ <b>Coastal Hazard, Risk Assessment and Reduction (CHRAR):</b> CHRAR has been initiated to cover the coastal areas of the country with the aim to develop S&amp;T enabled geospatial techniques for coastal disaster studies encompassing disaster genetics, propagation, disaster vulnerability mapping, detection of causative factors, mitigation measures etc. and come out with quantifiable/actionable outputs so that the state governments and the stake holders can readily use them</li> </ul> </li> </ul> </li> </ul>

Scheme	National Geospatial Programme Division (erstwhile NRDMS)
	<p>during the disasters for relief, restoration and rehabilitation</p> <ul style="list-style-type: none"> <li>○ <b>Geospatial Solutions for Urban Governance:</b> Under this sub-programme proposals are supported in the areas of city governance applications as well as in the core R&amp;D areas focusing on emerging technologies related to city development using Geo-ICT. The various R&amp;D projects are being supported focusing on Smart Parking Management System using sensors; IoT and GIS technologies; Framework for flood mapping and or prepare an early warning system in the occurrence of flood; City GML based 3D models for smart cities; Industrial Indoor Assets Positioning and Navigation System using Geospatial Analysis; Geomagnetism based Indoor Navigation system</li> <li>● <b>Capacity Building Programme:</b> <ul style="list-style-type: none"> <li>○ Training on Geospatial Science, Technologies, and Disaster Risk Reductions</li> <li>○ Organising Geo-Innovation Challenges for harnessing the new ideas in Geospatial Science/ Technology</li> <li>○ Strengthening Geospatial Training Institutes and development of Training modules and kits</li> </ul> </li> <li>● <b>International Collaboration:</b> This programme aims to develop the national capacity for Geospatial technology development, acquisition, and transfer through international partnerships/collaborations namely United Nations Global Geospatial Information Management (UNGGIM), Open Geospatial Consortium (OGC), Brazil Russia India China South Africa (BRICS), Indo-Africa collaborations etc.</li> </ul>

Scheme	Patent Facilitation Programme (PFP)
Stakeholders	All Citizens of India
Objectives	<ol style="list-style-type: none"> <li>1. Providing Patent information as a vital input to R&amp;D</li> <li>2. Patent /IPR facilitation to academic Institutions and Government R&amp;D Institutions</li> <li>3. IPR policy input to Government</li> <li>4. Conducting training and awareness programme on IPR in the country</li> </ol>

Scheme	Climate Change Programme
Stakeholders	Aligned to National sustainability
Description	Out of 8 outlined missions, two are being handled by DST
Objectives	<ol style="list-style-type: none"> <li>5. <b>National Mission for Sustaining Himalayan Ecosystem (NMSHE):</b> <ul style="list-style-type: none"> <li>● Formation of knowledge networks among the existing knowledge institutions engaged in research and development relating to climate science and facilitate data sharing and exchange through a suitable policy framework and institutional support.</li> </ul> </li> </ol>

Scheme	Climate Change Programme
	<ul style="list-style-type: none"> <li>• Establishment of global technology watch groups with institutional capacities to carry out research on risk minimized technology selection for developmental choices</li> <li>• Development of national capacity for modelling the regional impact of climate change on different ecological zones within the country for different seasons and living standards.</li> <li>• Establishing research networks and encouraging research in the areas of climate change impacts on important socio-economic sectors like agriculture, health, natural ecosystem, biodiversity, coastal zones, etc.</li> <li>• Providing an improved understanding and awareness of the key climate processes and the resultant climate risks and associated consequences.</li> <li>• Building alliances and partnerships through global collaboration in research &amp; technology development on climate change under International and bilateral S&amp;T cooperation arrangements.</li> </ul> <p><b>1. National Mission on Strategic Knowledge for Climate Change (NMSKCC):</b></p> <ol style="list-style-type: none"> <li>1. Building human and institutional capacities in the different existing / new Institutions in the Himalayan region.</li> <li>2. Identification of national knowledge institutions and development of a self-sustaining knowledge network.</li> <li>3. Development and adoption of new methods for assessing the health of the Himalayan eco system including those of glaciers and create a data base of the same.</li> <li>4. Assessment and quantification of the changes in the Himalayan eco system attributable to the climate change as a result of global emissions and human activities in the region and model for future projections</li> <li>5. Exploration of linking of traditional and formal knowledge systems through strategic mechanism of formalization for mutual benefit and value for the sustainability of the Himalayan ecosystem</li> <li>6. Identification of most-desirable Adaptation Policies to Improve Regional Sustainability</li> </ol>

Scheme	International S&T Cooperation
Stakeholders	Scientists
Description	Negotiating, concluding, and implementing Science, Technology and Innovation (STI)
Objectives	<ol style="list-style-type: none"> <li>1. Agreements between India and other countries</li> <li>2. Providing interventions on STI aspects in international forums.</li> <li>3. This responsibility is carried out by the IC Division in close consultation on the Indian side with the Ministry of External Affairs, Indian Missions Abroad, S&amp;T Counsellors at Germany, Japan, Russia and USA, stakeholders in scientific, technological &amp; academic institutions,</li> </ol>

	concerned governmental agencies and with various industry associations in India.

Scheme	Technology Missions Division
Stakeholders	Researchers and Scientists
Description	<p>There are a total of three missions under this division:</p> <ul style="list-style-type: none"> <li>• Technology Mission Programme on Water and Clean Energy</li> <li>• Mission on Nano Science and Technology (Nano Mission)</li> <li>• National Super Computing Mission</li> </ul>
Objectives	<p>4. <b>Technology Mission Programme on Water and Clean Energy:</b> Covers the entire value chain of R&amp;D right from oriented basic and applied research, precompetitive technology development, technology-based classification &amp; assessment of technology options, pilot-demonstration of technology leads from laboratories and academic institutions to evolve a basket of technology options and facilitating developed technologies for last mile connectivity etc. It also envisages nurturing enabling activities such as human and institutional capacity building including fellowships, training of human resources, promoting centres of excellence, thematic hubs, and technology platforms</p> <p>5. <b>Mission on Nano Science and Technology (Nano Mission):</b> Building upon the promotional activities carried out as part of the Nano Science and Technology Initiative (NSTI) in the highly promising and competitive area of Nano Science and Technology, the Government of India launched a Mission on Nano Science and Technology (Nano Mission) in May 2007. Recognizing the success of Nano Mission, the Union Cabinet accorded approval for continuation of the Nano Mission in its Phase-II during the 12th Plan period with an allocation of Rs. 650 crores. The Department of Science and Technology is the nodal agency for implementing the Nano Mission.</p> <p>6. <b>National Super Computing Mission:</b></p> <ul style="list-style-type: none"> <li>• To make India one of the world leaders in Supercomputing and to enhance India's capability in solving grand challenge problems of national and global relevance</li> <li>• To empower our scientists and researchers with state-of-the-art supercomputing facilities and enable them to carry out cutting-edge research in their respective domains</li> <li>• To minimize redundancies and duplication of efforts, and optimize investments in supercomputing</li> <li>• To attain global competitiveness and ensure self-reliance in the strategic area of supercomputing technology</li> </ul>

Scheme	Technology Watch and Foresighting
Stakeholders	Research Institutions

Scheme	Technology Watch and Foresighting
Description	<ol style="list-style-type: none"> <li>1. Close watch on current/emerging technologies globally in various relevant sectors in the context of an evolving Foresight Framework</li> <li>2. Development of a National Foresight System for Science &amp; Technology management</li> <li>3. Special focus on promoting industry-academia interaction / consortium in support of the above</li> <li>4. Development and support of S&amp;T Programmes / Activities in line with the chosen Foresight Strategies</li> <li>5. Documentation and dissemination of road maps, special foresight reports, and technology support programmes</li> <li>6. Forging linkage with various stakeholder group like Ministries / Departments / Industry / Academia / and the Civil Society for effective use of the artifacts / reports on Technology Watch and Foresight Strategies</li> </ol>

Scheme	Interdisciplinary Cyber Physical Systems (ICPS)
Stakeholders	Researchers & Scientists
Description	To foster and promote R&D in this emerging field of research.
Objectives	<ol style="list-style-type: none"> <li>1. A Cyber Physical System (CPS) is a mechanism controlled or monitored by computer-based algorithms, tightly integrated with internet and its users.</li> <li>2. It is an engineered system that are built from and depend upon, the seamless integration of computational algorithms and physical components.</li> <li>3. In general, Cyber means computation, communication and control that are discrete and logical.</li> </ol>

Scheme	Mega Facilities for Basic Research Scheme
Stakeholders	Researcher Institutes
Description	It is aimed to create mega facilities and launch mega projects in and out of the country to improve access to such state-of-the-art facilities for the Indian scientific community, especially from the academic sector for pursuing basic research.
Objectives	<ul style="list-style-type: none"> <li>• Technical complexities and requirement of large resources, such projects are manifestly multi-agency, multi-institutional and, quite often, international in character.</li> <li>• The Department of Science and Technology (DST) and the Department of Atomic Energy (DAE) have been jointly promoting most of such projects in the country.</li> </ul>

Scheme	Technical Research Centres Programme
Stakeholders	Research Centers

<b>Scheme</b>	<b>Technical Research Centres Programme</b>
<b>Description</b>	This programme was launched as a follow-up of the budget announcement made by the Hon'ble Finance Minister of India in his Budget Speech in FY 2014-15
<b>Objectives</b>	Accordingly, Technical Research Centres (TRCs) were established during FY 2015-16 in the following DST institutions: <ul style="list-style-type: none"> <li>○ Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), Trivandrum</li> <li>○ International Advanced Research Centre for Powder Metallurgy and New Materials (ARCI), Hyderabad</li> <li>○ Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR), Bengaluru</li> <li>○ Indian Association for the Cultivation of Science (IACS), Kolkata</li> <li>○ S.N. Bose National Centre for Basic Sciences, Kolkata.</li> </ul>

<b>Scheme</b>	<b>Technology Development and Transfer</b>
<b>Stakeholders</b>	Researchers
<b>Description</b>	The mandate of Technology Development Programmes (TDP) is to convert proof-of-concepts for technologies/ techniques/ processes/products into advance prototypes for validation and demonstration in actual field settings.
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• The commercialization of these technologies needs further assessment/incubation, which does not fall in the scope of the Technology Development Programme.</li> <li>• Transfer of technology developed under the project to the industry should ideally be the onus of the host institutions.</li> <li>• Proposals for incremental R&amp;D over the existing technologies are also considered for support. Projects related to design and development of Software/IT, as required for products and processes, as a part of technology development project shall be considered.</li> <li>• Pure software development does not fall in the scope of the Programme.</li> </ul>

<b>Scheme</b>	<b>Science and Technology of Yoga and Meditation</b>
<b>Stakeholders</b>	All citizens of India
<b>Objectives</b>	Basic themes being covered under SATYAM include, among others <ul style="list-style-type: none"> <li>• Investigations on the effect of Yoga and Meditation on physical and mental health and wellbeing</li> <li>• Investigations on the effect of Yoga and Meditation on the body, brain, and mind in terms of basic processes and mechanisms</li> </ul>

<b>Scheme</b>	<b>Programme for Science Students</b>
<b>Stakeholders</b>	All citizens of India

Scheme	Programme for Science Students
Description	<p><b>There are two programs under it:</b></p> <ul style="list-style-type: none"> <li>• Kishore Vaigyanik Protsahan Yojana (KVPY)</li> <li>• Science Olympiad Programme</li> </ul>
Objectives	<ul style="list-style-type: none"> <li>• <b>Kishore Vaigyanik Protsahan Yojana (KVPY):</b> The objectives of the program are to identify students with talent and aptitude for research, help them realize their potential in their studies, encourage them to take up research careers in science and ensure the growth of the best scientific minds for research and development in the country.</li> <li>• <b>Science Olympiad Programme:</b> These programs aim at promoting excellence in Science and Mathematics among pre-university students. While HomiBhaba Centre for Science Education (HBCSE), Mumbai is the nodal organization for selection, training of students through Indian Association of Physics Teachers (IAPT) for participation of students at various International Olympiads meet. The program is financially supported by Government of India, in particular Department of Science and Technology, Board of Nuclear Sciences (Department of Atomic Energy), Department of Space, Ministry of Human Resource Development and Ministry of Earth Sciences.</li> </ul>

Scheme	Cognitive Science Research Initiative (CSRI)
Stakeholders	For Citizens of India
Objectives	<ul style="list-style-type: none"> <li>• Nature and origins of mental disorders, of physiological, social, and neuro-chemical origins.</li> <li>• Design of better learning tools and educational paradigms.</li> <li>• Design of better software technologies and artificial intelligence devices.</li> <li>• Streamlining of social policy formulation and analysis.</li> </ul>

Scheme	National Council for Science & Technology Communication (NCSTC)
Stakeholders	All citizens of India especially women
Objectives	<ul style="list-style-type: none"> <li>• It focuses on outreach activities, training in Science and Technology communication, development, production &amp; dissemination of S &amp; T software, incentive programmes, and field-based Sci-Com projects, research in S&amp;T communication, international co-operation, motivating students and teachers, environment awareness and programmes with a special component exclusively for women</li> </ul>

Scheme	Science For Equity Empowerment and Development (SEED)
Stakeholders	For Citizens of India
Description	Improvement of primarily for enabling disadvantaged sections of the society.

Objective	Delivery of science-led solutions, development and deployment of location-specific appropriate technologies for creation and improvement of sustainable livelihoods
-----------	---

Scheme	National Science & Technology Entrepreneurship Development Board (NSTEDB)
Stakeholders	All citizens of India
Objective	<ul style="list-style-type: none"> <li>To promote and develop high-end entrepreneurship for S&amp;T manpower as well as self-employment by utilizing S&amp;T infrastructure and by using S&amp;T methods.</li> <li>To facilitate and conduct various informational services relating to promotion of entrepreneurship.</li> <li>To network agencies of the support system, academic institutions and Research &amp; Development (R&amp;D) organizations to foster entrepreneurship and self-employing using S&amp;T with special focus on backward areas as well.</li> <li>Implementation of the NIDHI programs</li> <li>To act as a policy advisory body with regard to entrepreneurship.</li> </ul>

Scheme	State Science & Technology Programme

#### 5.1.10. Opportunities in use of technology for the relevant functional areas of department

There are many technologies implemented in the ministry and some are still underway. There are opportunities where technology can facilitate to make processes more seamless. We have identified such opportunities and mapped them to the expected outcomes.

S. No.	Opportunities	Outcomes
•	<b>Collaboration Platform:</b> A platform may be implemented where inter MDOs (especially with the MDO working on related schemes or policies or get affected by the decisions of Department of Science and Technology) communications and collaborations will be seamless	Reduce the time and effort required for the same work being done in various MDOs in the country MDOs can collaborate for certain projects where inter disciplinary expertise is required
•	<b>Institutionalize a process:</b> where the in-house senior officials can provide training and share their experience in a peer-to-peer learning mode on any of the topics relevant to the functioning of the department of Science and Technology	Increased awareness in the topics and better functioning of the officers
•	<b>Templatization of documentation:</b> preparing proposal notes, cabinet notes & drafting of schemes and giving access for the same to all the ministry officials.	Reduces time taken in preparing proposal notes, cabinet notes as these skills are required in all the divisions

## 5.2. Competency Needs Assessment on Individuals & Organizational level (CNA)

### 5.2.1. Focused Group Discussion (FGD)

- Focus Group Discussion (FGD) is a qualitative research method and data collection technique in which the team held FGDs with the identified divisions inviting representation from top and bottom levels. FGDs were conducted by having homogenous grouping of the MDO staff at different levels including administrative, technical, and administration & finance staff that are associated with different division/ scheme/ program/ unit of the department.
- At Department of Science & Technology (DST), the Focused Group Discussions were conducted with surveys around 02-06-2022 to 05-10-2022 and covered a total of 30 officials.
- *Number of officials covered in DST –*

### 5.2.2. Capacity Need Analysis for Role wise Competency Needs

Capacity Needs Analysis is a framework that assesses the desired capacity against existing capacity in order to identify the capacity gaps. For Capacity Needs Analysis survey, a Google survey form was prepared & finalized with a consultation with CBC and MDO to assess the Capacity Needs Assessment of individuals in the unique role in an organization. The survey is a self-evaluation, where the competency gaps are captured for both training needs and collective organizational needs of the MDO. The Capacity Need Analysis focused on Behavioral, Functional and Domain competencies.

The coverage of the CNA survey at the department is shown via tables below

### 5.2.3. Designation wise competency needs

The CNA for designation wise competency needs had the major discussion on Key focus areas activities and functions of each division/cell/department under a Joint Secretary, Initiatives being undertaken to meet the short- and medium-term goals, and targets/ milestones, if any and Key skills gap & competency challenges faced by the division/cell/department in executing the above objectives.

#### 5.2.4. Types of Interventions

The interventions were mapped considering the various interactions and consultations done through FGD's, CNA and Secondary research. These Interventions were then bifurcated in Training and Non-training interventions.

#### 5.2.5. Training interventions

- **Induction training:** When a new official is hired by the MDO, they must complete induction training. The training's purpose is to familiarize the official with the MDO's operation and the responsibilities they will have in that organization. The majority of the time, the officials get training on MDO- and position-specific abilities.
- **Refresher training:** A refresher course is done by authorities who have already received the necessary training. The training is intended to either update the officials' capabilities in light of changes in the definition or the working environment, or to provide the officials with the opportunity to review their previously learned competencies.
- **Regular training:** Regular training focuses on giving officials the skills they need to successfully carry out their existing responsibilities and daily tasks.
- **Progressive training:** Progressive training equips officials with the abilities they need to be ready for future MDO operations and anticipates the MDO's long-term needs based on the evolving work environment and mission.

##### 5.2.5.1. Levels of training interventions

Training interventions are categorized into two levels. These are as follows: Check bullet numbering

- **Basic:** This training equips officials with the minimum competencies and proficiency levels within each competency, required to effectively perform their roles and fulfil their mandate in the MDO.
- **Advanced:** This training equips officials with the competencies that enable them to continually adapt and optimize their performance for all roles.

#### 5.2.6. Non-training interventions

Non-training activities can include anything that does not involve formal instruction or practice. Examples of non-training activities include team building activities, include automation of repetitive processes within the department/organization, procurement of an online collaboration tool, knowledge management et cetera

#### 5.2.7. Organizational Interventions Output

To gauge capacity needs at the organizational level, each wing/division/section of the MDO will need to be assessed based on aspects, including but not limited to:

- **Technology and Data:** - This dimension deals with the technological tools the MDO has used to enhance its performance. Among these are PQSoft for managing parliamentary questions for the MDO and software that offers a quicker turnaround time on repeated work. Other

examples include digital solutions that improve productivity or enable quicker pain-point resolution.

- **Systems and Processes:** - This dimension covers all of the MDO's developed methods and procedures for carrying out daily operations. Examples include learning management systems, standard operating procedures, and monitoring mechanisms for programmes.
- **Resources and Assets:** - This covers the MDO's assets and resources, including the hard and soft infrastructure needed for day-to-day operations. For instance, the actual location, financial resources, etc.
- **Partnerships and Relationships:** - All external relationships, such as those with other ministries or departments, international organizations, and citizen groups, are included in this dimension.
- **Personnel Management:** - This covers all activities related to managing the MDO's human resources, including performance reviews, learning and development, performance management, succession planning, etc

OT0080	Accountability	Taking Accountability	Behavioral	While it may appear that accountability begins externally, it begins within oneself. The first step is to make sure your officer is prepared to be held accountable. We want the governance to succeed, so it is critical that before we discuss accountability, we help to establish an environment in which people believe they can succeed. Officers may then take full responsibility for any action they choose to take when the time comes, and they will do their best if things don't go as planned since they have	-	IIPA	<a href="#">Link</a>	Advanced	Offline
