

## Invitation for empanelment of Knowledge Partners to design, develop and deliver DAKSH (Leadership Development Program)

SCOPE, in association with the Capacity Building Commission (CBC), Government of India, invites proposals for the empanelment of Knowledge Partners to design, develop, and deliver DAKSH (Development of Aspiration, Knowledge, Succession & Harmony) – A common leadership development program for senior leaders of CPSEs. This initiative aims to enhance the leadership capabilities of senior executives (GMs, CGMs, and EDs) in Central Public Sector Enterprises (CPSEs), preparing them for future Board-level roles and creating a pool of future-ready leaders.

CPSEs are vital to India's socio-economic progress, contributing over 13% to the national GDP through industrial growth, capital generation, and employment. Mission Karmayogi aims to improve the competencies of all civil servants – including the CPSEs. In an increasingly complex and evolving world, it is essential to strengthen the organizational capabilities of CPSEs with agile leaders who can steer these entities toward a successful future.

Proposals for the RFP must be submitted by 18th September 2024. For further details, please visit: <https://lnkd.in/gSGP6WS3>
